

BtB Marine Designs & Construction of Commercial Aluminium Vessels

oil spill response vessel • dive support • fast passenger • landing craft

- Product Design • Smart Solutions towards Efficiency
- integrating OXE & COX Diesel Outboard • Innovative thinking
- Partner in Marine needs

Capability

- 1x 25m Vessel / year
- 2x 16-18m Vessel / year
- 4x 12m Vessel / year
- 20x 6m Vessel / year

Discriminators

- Critical Parts of Vessels are Designed & Manufactured in-house
- Low Volume, High Quality, Cost Effective
- Integration of Diesel Outboards for 'plug & play' Long Range Vessels
- Investing heavily in Vessel's through-life-Cost & Maintenance Assistance

BtB marine the cutting edge

Customers

- **Queensland Government EHP**
*Environment and Heritage Protection is responsible for **managing the health of the environment**, including waterways, as well as its native plants and animals and biodiversity. BtB Marine won a tender to provide **2x 'Crocodile Hunting' vessels** in 2C Survey - 5Nm - 4 pers - see top left photo.*
- **Gladstone Ports Corporation Limited**
*is working to deliver Central Queensland's wealth to the world. The Port of Gladstone plays a pivotal role in **delivering the region's natural resources and finished products** to customers worldwide. BtB Marine won a tender to provide an **Oil Spill Response vessel** in 2D Survey - 6 pers - see bottom left photo.*
- **Neptune Australia**
*provides a complete range of **commercial diving** and inspection, repair and maintenance to clients in the oil and gas, shipping, defence and marine infrastructure industries. Bases in Perth, Darwin, Dampier and Gladstone. BtB Marine built a suitable **Landing Craft** for the new Gladstone operations in 2C Survey - 10 persons + max of 3 tonne - or 1C with 25 pas - see top right & bottom middle photos.*
- **Solomon Islands Government**
for constituency North New Georgia, Western Province, Solomon Islands, BtB Marine supplied a Landing Craft to aid in the economical growth of the Island group, - see top middle photo.

- **Fabrication to Standards** AS 4132.2-1993 boat & ship design & construction + AS NZS 1665-2004 welding of aluminium structures
- **Certified Personnel** Certificate III & IV engineering
- **Quality System and Environmental Policy** in place
- **Members of The International Institute of Marine Surveying (IIMS) - BIAA & ACMG**
